

Collaborative Commentary -- Adult Clinical Language Banks

This task focuses on interactions in the adult clinical language banks. Use the Browsable Database CC (Collaborative Commentary) feature to tag behaviors listed at the end of this page and enter any detailed comments. This assignment assumes that you have gone through the screencast tutorials for CC at <https://talkbank.org/screencasts>.

For reference, the manual is here: <https://sla.talkbank.org/CCmanual/>

Tag & Comment assignments

Note: These databases are password protected. The database member (and CC group owner) will give you the access information after explaining the TalkBank Code of Ethics -

- <https://talkbank.org/share/ethics.html> – and confirming your agreement to refrain from recirculating or reusing the material in any fashion. (See the 2nd paragraph here - <https://aphasia.talkbank.org/> -- for information about becoming an AphasiaBank member.)

Your task is to enter tags/codes and comments for PAR utterances for just **one discourse segment** of the transcripts listed below.

Group owner's email: davisue00@gmail.com

CC group to join: TBI

In TBIBank/English/Togher folder:

03/45 - Sandwich

03/35 - Cat

06/35 - Umbrella

06/36 – Cinderella

Assignment #3: RHDBank

Your task is to respond to 2 questions from Case 2 in the RHDBank Grand Rounds — <https://rhd.talkbank.org/education/class-rhd/> .

1. Narrative Speech and Stroke story, Question #4: *How would you judge Phil's stroke story? Did it embody some of the characteristics of right hemisphere discourse? If so, which ones -- information content, organization, coherence, prosody, etc.?*

2. Narrative Cinderella story, Question #1: *Adults with RHD may demonstrate a variety of discourse characteristics, as you've seen in the cases here. Would you agree that Phil's story could be described with these terms – verbose, fluent, intelligible, confabulatory, tangential? What other terms might you use instead or in addition?*

Group owner's email: davisue00@gmail.com

CC group to join: RHD-GR

In RHDBank/GR folder:

nazareth03a-stroke (for #1 above)

nazareth03a-speech (for #2 above)
