

**PERMISSION TO DISTRIBUTE TRANSCRIPT DATA
THROUGH TALKBANK
Carnegie Mellon University**

Carnegie Mellon University is participating in a data-sharing program known as TalkBank that was established through federal and foundation grants to Brian MacWhinney at Carnegie Mellon. For the program to function properly, contributors will be asked to and will give permission for their work to be made available to other researchers. With a full understanding of the aforementioned, I hereby give permission to TalkBank to make and circulate electronic copies of the language transcripts and media that I describe below. These copies may be distributed to scholars and other responsible parties. I warrant that this use of the data is in accord with Human Subjects review procedures at my institution and that participants have given informed consent to have their data available to researchers. I also warrant that there is no copyright restriction over the transcripts and media being circulated. Any further restrictions that I wish to place on the use of these data are listed under (2) below. I do not hold Brian MacWhinney or Carnegie Mellon responsible for the enforcement of these further restrictions and indemnify and render harmless both Brian MacWhinney and Carnegie Mellon University against any actions at law or in equity or in similar courts of any jurisdictions arising from violations of these restrictions.

1. General description of the data set, and IRB Approval # (if available):

The corpus consists of transcripts of three girls (Jordina, Irene and Yasmin). Yasmin and Irene are in the Spanish folder and Jordina is in the Catalan folder.

Irene was recorded for 24 sessions at intervals of two weeks or monthly from 0;11.01 to 3;2. Irene is a monolingual Spanish speaker. This corpus was developed by Ana Ojea in Oviedo.

Yasmin was recorded in 49 sessions from age 1;10.19 to 2;9.5. Yasmin is bilingual in Spanish and English. Both parents speak to her in English, but her father speaks to her almost exclusively in English.

2. Restrictions to be placed on the use of the data:

The authors of the corpus would appreciate being notified and receiving a copy, or a summary, of any work using the data of the corpus.
